Hope you feel better, LaVerne. It's been a crazy day with budget hearing stuff.

On Fri, May 19, 2017 at 12:40 PM, LaVerne Jordan - S <[laverne.jordan@gsa.gov](mailto:laverne.jordan@gsa.gov)> wrote:

It seems as though I've pulled something in my back and I've been given a shot, just picked up some pain meds and a muscle relaxer. I've also been given a doctor's excuse to return to work on Tuesday, therefore I'm going to go and take my meds and hope to feel better.

I just called to verbally give you this information but since you were not available, I'm sending you this email.

I see that an LRM has come while I was at the doctor's office and I will take care of it, also I'm going to let Larnell know that I will not be working for the rest of the day after I send out this LRM.

I will submit my leave slips upon my return to work. Thanks

Afternoon Mr. Japson –

I recently heard the good news that GSA and DOD are working to stand up a new PKI for US government use. My Committee has been interested in certificates and the Web PKI for some time now (we sent these [letters](#) back in 2015 on the topic), and I wanted to check and see if the appropriate folks would be willing to come in and brief myself and a handful of other interested staff on GSA's efforts in this space. We'd love to learn more and if/how we can support.

**Subject:** Re: Request for Input on HR 2594-Ordered Reported Bill

Hi Stephen,

Left you a voicemail. With regard to question 1, we don't compile information on contract modifications that require equitable adjustment. With regard to question 2, it would not require GSA to do a lot of additional work as we already have a process that would allow for modifications and an appeals process should there be a dispute. In addition, as part of our project planning, a certain amount of money is set aside from each project for contingency costs. This set aside is in every project as we have learned from prior experience that there will likely be modifications or adjustments made to the contract during execution of the project that are not in the original scope of work and therefore will result in increased costs.

Happy to chat further, 202-357-9590

Regards,

Saul

Michae ,

The following is provided for your awareness and to obtain approval for NCR to promote and participate in a St Elizabeths-related public exhibit and associated press event. The specifics are as follows:

**What:** GSA-required exhibit re St E's held at the National Building Museum (NBM) involving media promotion, opening press event, reception, and dinner

**Why:** Our St E's Programmatic Agreement (PA) (36 CFR 800.14(b)) stipulates certain mitigation measures and outlines GSA's public outreach, education, and interpretation obligations and includes GSA's obligation to: "design and develop a permanent interpretive exhibit... documenting the history, significance, redevelopment and future use of the Site."

**Exhibit Title:** Architecture of an Asylum: St Elizabeths 1852 – 2017

**Location:** National Building Museum

**Dates:** Opening evening events: March 28; Exhibit: March 25, 2017 - January 15, 2018

**Asks:** There are four parts to the exhibit; We're looking for feedback now on 1 & 2 below; NCR is working with OGC on 3 & 4 to see if it's ok to attend. Even if it is ok, I'll circle back to see if we should.

1 Can GSA actively promote the exhibit?

(Blog, tweet, release web or some combination OSC is positive about promoting the exhibit is GSA's responsibility it's a good community activity we should get good press for it NBM is promoting it and frankly they shouldn't get all the positive press as if we weren't involved at all.)

2 Can GSA participate jointly in the press opening even with the NBM?

(Same as #1.)

3. Can certain GSA participants attend a reception following the press event?

4. Can certain GSA participants attend the dinner following the reception?

**NBM's Website:** [Advertising the exhibit](#)

**Description:** The Government Hospital for the Insane, as the campus was originally named, opened in 1855 as a federally-operated facility. The exhibition tells the story of St. Elizabeths' change over time, reflecting evolving theories of how to care for the mentally ill, as well as the later reconfiguration of the campus as a federal workplace and mixed-use urban development.

The PA stipulates that GSA will develop a permanent interpretive signage program for the West Campus; produce a comprehensive catalog/monograph; work with the D.C. Public and Charter School System to develop a Lesson Plan on St. Es; and, conserve the architectural mode of St. Es.

**Contractual Arrangement:** GSA contracted with the NBM for the creation of a museum exhibit in accordance with the PA. They are providing the following services:

- Research & Curatorial Services
- Graphic Design Services
- Education & Public Programming
- Companion Publication
- Object Conservation
- Exhibition Fabrication
- Exhibition Installation & Display
- Public Affairs & Programming
- Exhibition Crating & Transfer
- Companion Signage Design
- Total contract amount (base plus option): \$477,103

**GSA Approvals:**

– Steve Schwartz, NCR Counsel, provided original approval of the SOW for the contract to ensure GSA has the authority to contract for the exhibition services and the Source Justification.

– Jeff Hysen, NCR Counsel, Elizabeth Hochberg, CO Counsel, and Kristen DiReda, OSC, approved the GSA recognition text for the exhibition opening panel, website and calendar of events.

o The approved language is: *St. Elizabeths: Architecture of an Asylum* is presented in collaboration with the [US General Services Administration](#). Additional support has been provided by the [American Institute of Architects](#), Events DC, ZGF, Braisford & Dunaway, and Smoot | Gibb, A Joint Venture.

Hey Andrew –

Sorry again to have missed the call the other day. It's been an insane week. But I did leave you a voicemail late last night and would love to touch base when you have a minute. I should be in the office until 6pm tonight if you're able to give me a ring. My direct is 202-225-0646 and if I don't pick up for some reason you can try the main line too in case I'm away from my desk.

Thanks,  
Jeff

Hi Eddie,

Anthony is on the road this week and asked me to reach out to you regarding your inquiry about proposed funding for the Otay Mesa Land Port of Entry. The following is the project description in case you haven't seen it:

San Diego, CA: Otay Mesa U.S. Land Port of Entry.....\$121,848,000

GSA requests \$121,848,000 to undertake the construction of facilities to modernize and expand the Otay Mesa LPOE in San Diego. The project includes expansion construction of additional non--commercial primary inspection booths, pedestrian processing facilities, and a commercial annex building, relocation of detention and Secure Electronic Network for Travelers Rapid Inspection (SENTRI) facilities and hazardous material processing, construction of surface or structured parking for employees and visitors, and commercial import lot improvements. The project will meet the current and future operational requirements of the federal agencies.

Non--commercial pedestrian processing is undersized and the planned development of a new locally developed transit center (adjacent to the LPOE) is expected to significantly increase the congestion in the pedestrian processing facilities. Detention areas in the main building do not meet current CBP design guide standards and expose the traveling public and officers to unnecessary risk.

The port averages 2,400 northbound trucks, 21,000 northbound privately owned vehicles and 9,500 pedestrians on a daily basis. Total commercial flows have increased an average of 2.25% a year since 2005. Circulation within the commercial port is extremely congested which impedes processing of commercial vehicles and creates dangerous conditions for officers. Due to a constrained site and the need to maintain sufficient area for commercial vehicle circulation, structured parking is proposed. The FY 2018 request is for Design (\$10,062,000), Construction (\$100,718,000) and Management and Inspection (\$11,068,000).

Please let us know if you have any questions. Thanks.

Traci

Thanks Jon. When I first saw our score for transparency, i knew something was not adding up, but never did I think it would be this crazy. There are no words to describe the ridiculousness of this scoring methodology.

should have made one thing clear - GAO assists OGR in creating the scorecard, but it is ultimately OGR's final decision on the methodology. Kevin Walsh (GAO) repeatedly stated during yesterday's call this was OGR's scorecard.
